

Responsible oil and gas

Enhanced oil recovery (EOR)

ENHANCED OIL RECOVERY (EOR)

## OUR NETWORKS

IFPEN has created **a community of 70 partners around a workshop dedicated to chemical EOR**. It brings together EOR managers from oil companies to discuss technical and industrial challenges associated with the implementation of EOR on the ground, technological advances and pilot project feedback.

*By invitation, every two years, in the Paris region.*

Join the community and explore the key factors governing the success of chemical EOR projects with your colleagues!
