Plastics recycling

## PLASTICS RECYCLING OUR NETWORKS

### **Axelera competitiveness cluster**

The chemical recycling of plastics is an important theme for the Axelera competitiveness cluster, of which IFPEN is a founding member.

### **Petcore Europe**

Association, based in Brussels, representing the complete PET value chain in Europe

## AC2R

The role of the Association alliance chimie recyclage (Chemical recycling alliance association) is to share a common vision and demonstrate a community of objectives, to represent and promote the recycling, among others, of high-tech materials, plastics, etc. within the shortest possible, most inclusive life cycles across the territory.
