Training and Careers

For the start of the new term, IFP School organized its integration week from 2nd to 6th September 2019 to introduce the school and its environment to the new students.

The whole IFP School community was present for the event: the school's management team, the heads of centres, program supervisors, lecturers, administrative staff.

The week kicked off on Monday morning with a welcome speech by Head of the school Christine Travers. It continued with an orientation itinerary within the campus including for example a learning escape game, a sustainable development workshop and an engine game. The week wrapped up with a rally in Rueil-Malmaison on Friday morning and an entertaining sports challenge at the [Château de Vert-Mont](#) on Friday afternoon.
